

TAPESTRY OF MY LIFE

COACHING TOOL

Singles, future-oriented pensioners, couples with or without an 'empty nest', career changers, people experiencing transition or simply those who want to take a closer look at their talents, passions and abilities... If any of those descriptions apply to you - don't miss this workshop! What has been hidden and can be rediscovered?

Or what new discoveries can be made?

In your 'tapestry of life', you can draw your own themes for different stages of your life. It's all about the positive moments in life. This facilitates new insights and decisions for your future. As with tapestry weaving, every single knot is important, and when the tapestry is completed, it's a work of art in itself.

That's like our lives: every single knot is important.

The key point is: The power is in your hands.

It's worth looking at: What do I enjoy? What are my talents? If we live in harmony with our talents and do what we really love (as far as possible), we will be able to enjoy much more fulfilled and contented lives.

So this workshop can also help prevent burnout.

The Tapestry of My Life© encourages you to look at what's good. It enriches you, sets you free, and creates space for a new perspective on using your talents, abilities, and experiences.
